

The 5th International Symposium on Urban and Industrial Safety (First notification)

Urban and Industrial Safety involves the interdisciplinary intersection in civil engineering, chemical engineering, engineering thermophysics and other fields, and focuses on the safety issues of leakage, fire, explosion, poisoning and other safety problems in process industries and urbanization, which are closely related to the safety of lives and properties. The symposium has been successfully held four times, the 5th International Symposium on Urban and Industrial Safety will be hosted by Nanjing Tech University and be held on 22nd - 24th November 2024 in Nanjing. The aim of this symposium is to explore and exchange cutting-edge scientific theories in safety disciplines, discuss the development concepts of science and technology of urban and industrial safety, analyze the new trends in the development of the discipline, promote the development of science and technology of urban and industrial safety, and expand the academic exchanges among the international community. We sincerely invite you to submit your papers and participate in this symposium.

1. Organization

🕹 Organizer:

Nanjing Tech University

Co-organisers:

China Academy of Safety Science and Technology University of Science and Technology of China Yunlin University of Science and Technology Xi'an University of Science and Technology Changzhou University

Contractors:

College of safety science and engineering, Nanjing Tech University

Jiangsu Key Laboratory of Hazardous Chemicals Safety and Control

Key Laboratory of Chemical Process Safe Production of the Ministry of Emergency

Management

Sino-European Joint Laboratory for International Cooperation in Chemical Safety Professional Union of Safety Science and Engineering in Universities of Jiangsu

4 Supporting Organizations:

Safety Science and Engineering Discipline Review Group of the Degree Committee of the State Council

National Advisory Committee on Teaching Safety Science and Engineering to Majors

in Higher Education under the Ministry of Education

Jiangsu Society of Chemistry and Chemical Engineering

Jiangsu Society of Science and Technology for Safety Production

Jiangsu Fire Protection Association

2. Topics

- Safety of Hazardous Chemicals
- Risk Assessment of Chemical Reactions
- Industrial Process Safety
- Inherent Safety Design
- Safety of Advanced Materials
- Safety of New Energy
- Explosion Safety and Protection

- Monitoring and Warning of Industrial Process
- Safety of City Lifeline
- Safety in Coal Mine and Underground Engineering
- Fire Safety
- Personnel Safety and Safety Culture
- Urban Risk Assessment
- Emergency Technology and Management

3. Key dates

Deadline for papers (either long abstract or full paper)	20 th October 2024
Deadline for Early-bird Registration	31 st October 2024
Date of the symposium	22 nd - 24 th November 2024

4. Call for papers

Submission:

Submission process: Register on the homepage of the website and submit a long abstract or full paper online. The registration, paper submission, paper evaluation and notification will be done online at the conference website (www.ISUIS2024.cn), and each registrant is requested to fill in his/her real and effective contact information for timely contact.

Authors of papers are eligible to be delegates to the symposium. For each paper, at least one author or delegate is required to attend the symposium. The excellent papers will be selected and awarded at the closing ceremony of the symposium. If there are several authors or delegates from the same paper attending the symposium, each participant must register on the website. If you are not an author, please register your personal information on the website directly, and then you can participate in the symposium after consideration and approval by the Organizing Committee. Only papers writting in ENGLISH will be accepted. Please follow the template to write your paper. Otherwise, the papers that do not meet the requirements will not be included in the evaluation process.

Publication:

Papers will be included in the symposium paper collection, which will not be published in public, and the electronic version will be disseminated via a USB stick. High-quality papers will be recommended for publication in special issues of SCI journals such as Safety Science (SS), Process Safety and Environmental Protection (PSEP), Journal of Loss Prevention in the Process Industries (JLPPI), and Emergency Management Science and Technology. If the paper was recommended for journal publication, there must be at least one author attending the symposium and presenting the work of the paper. Invitations to submit papers for special issues will be sent to the corresponding authors after the symposium. The authors will follow the instructions to submit their papers for peer review in the special issue system.

Language: English

5. Registration

Fee:

Offline participation: the registration fee for the ordinary delegate is 2,800 RMB (2,500 RMB before 31st October), and the registration fee for the student delegate is 2,000 RMB (1,800 RMB before

31st October). In order to ensure the quality of the symposium and the rights and interests of the participants, the symposium fee must be paid once after the long abstract or full paper is accepted by the committee.

Remittance account:

Account Name: Nanjing Tech University

Bank account number: 10108401040001399

Bank of deposit: Agricultural Bank of China Limited, Science and Technology Sub-branch at Nanjing Mofan Road

Bank Number: 103301010841

Please be sure to note in the remittance: 5th ISUIS_Name_ Affiliations

For the registrant overseas, payment can be made on-site.

6. Contact
